

Personal Project
Final Deadlines and Checklist

It's just 4 weeks until your Personal Project is due. To help you keep organized, here is a checklist of upcoming deadlines.

What's due?	When?	To whom?
Your "project"	Tuesday, April 28	Supervisor
Written reflection paper	Tuesday, April 28	Supervisor
Process journal	Tuesday, April 28	Supervisor

Your supervisor will have one week to review and assess your personal project before the public exhibition night. If you are not able to turn in your project on the day it is due, be sure to communicate clearly with your supervisor to generate a plan. **You** must plan to pick up all materials from your supervisor **before** the May 5th exhibition night.

Tuesday, May 5th is the mandatory Public Exhibition Night. This is when you show off your project, and talk with people about the process and what you have accomplished. We will meet in Mr. McComb's tech room according to the following schedule:

Period 1 MYP Tech 6:00 – 7:00 pm
Period 5 MYP Tech 7:00 – 8:00 pm

*** Please arrive 10 minutes early for set-up.**

Come prepared with your project, written work, and process journal. You will need to set up the multi-media presentation you've worked on in tech class as part of your presentation.

Please invite your parents/guardians, your supervisor, and other family and friends you would like to have stop by. You've worked hard on this accomplishment, and it's time to celebrate your many achievements.

If you are experiencing problems with the personal project, please contact Ms. Derr as soon as possible to work toward solution.
