

The 6 essential ingredients for achieving two year's worth of growth in one year with your students

1. Target students who are two or more years below grade level
2. Schedule students for 15-20 minutes of SuccessMaker computer time 3-5 times per week
3. Provide an active teaching component in conjunction with students' time on the computer
4. Use the SuccessMaker strands to tailor instruction to individual students' needs
5. Provide recognition for students
6. Encourage students to track their own growth

SuccessMaker Targets*

80% of students, or 80% chance of being proficient or above on the CSAP.

Math Concepts and Skills	
Grade	SM target
3 rd	3.9
