

# Differentiated Instruction for all Subjects

## Engage and Challenge all the learners in your class!

*In our current educational system, teachers are working hard to meet the needs of all students, regardless of their starting ability. Tier I interventions are in the classroom— not outside of class.*

*You can help meet the needs of all students with the strategies presented in this course.*

### *What you will learn and be able to use:*

Information about Differentiated Instruction

Benefits, Factors to Consider, Positive outcomes, ways to adjust lessons, planning lessons, classroom management, teaching resources, and how to use data to adjust instruction.

Differentiated Instruction Strategies

Grouping, Open ended questions, multi-level questions, pre-assessments, cubing, web quests, Tic-Tac-Toe, interest centers, tiered assignments, individual learning contracts, and more!

*Teachers – This course will help you plan lessons to use in your classrooms. Bring materials for a lesson or unit you plan on doing in the near future.*

Taught by Carol Kramer-  
In education for over 14  
years with experience in  
middle schools, high schools,  
Gifted, Special Ed., At- risk  
students, and interventions.
