

Differentiated Instruction for Math Teachers

What you will learn and be able to use:

Information about Differentiated Instruction

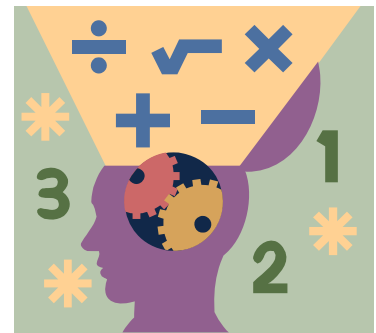

Benefits, Factors to Consider, Positive outcomes, ways to adjust lessons, planning lessons, classroom management, and teaching resources.

Differentiated Instruction Strategies

Grouping, Open ended questions, multilevel questions, pre-assessments, cubing, web quests, Tic-Tac-Toe, interest centers, tiered assignments, individual learning contracts

Teachers – This course will help you plan lessons to use in your classrooms. Bring materials for a lesson or unit you plan on doing in the near future.

Taught by Carol Kramer-
In education for over 14
years with experience in
middle and high school math
courses (5th gr. Math
through Calculus!)
