IX ***Questionnaire***

Please respond honestly and thoughtfully to the following questions. Include separate pages if necessary.

1. Describe your overall **coaching philosophy**.

2. Describe a '**normal**' **practice** and include in your answer your practice philosophy - if applicable.

3. Describe how you would handle the following situation:

A disgruntled parent approaches you regarding his/her son's playing time on varsity. The student in question played for you the previous year and performed well within a more prominent role as a starter and statistical leader. This season he has been asked to accept a role that brings much less recognition and playing time. It is obvious that this parent has an 'agenda'.

4. What are your **long-term goals / aspirations**?

5. Why should we hire you? **How will you make us better?**
