

ACCOMPLISHMENT REPORTING TO THE PUBLIC

The Board of Education shall report data on the achievement of its goals and objectives, educational achievement and graduation rates to the public on an annual basis. The report shall include a district profile of student performance or a summary profile of student performance for each building. Data concerning a specific school building shall be sent to parents of students in that building. Reporting of results shall be consistent with the reporting requirements found in state law and Colorado Department of Education rules.

The report also shall include information about revenues, expenditures and costs of various segments of district and school operations.

Adopted February 1989
