

**Write your answers.**

1. How do people use science to solve problems?
2. Name a simple machine. Tell how you use it to do a job.
3. What kinds of technology do you use to communicate?
4. Name the things that are done and the machines that are used as wood goes from the tree to the sawmill. Use the graphic organizer to help you.

### **Put Things in Order**

**First**

**Next**

**Last**
