

Rudy Elementary Science Club 2009-2010 School Year

Science Club is designed to add one more dimension of science for the students at Rudy Elementary to stretch their science learning through inquiry and problem solving using high interest topics for ALL students at ALL levels.

Science club will meet after school on designated Thursdays through out the year. Each month will feature a theme designed for either Kindergarten-1st Grade students, 2nd-3rd, or 4th-5th Grade students.

Fees for science club will range from \$2 - \$5, depending on supplies for each theme.

The following activities are currently scheduled for this year:

September 3rd, 10th, 17th, 24th – CSI Rudy, 4th and 5th

October 8th, 15th, 22nd – Simply Sunflowers, Kindergarten and 1st

November 5th, 12th and 19th – Popcorn Power, 2nd and 3rd

We are asking students to preregister for the above classes in order to give us an estimate of the number of students who wish to participate and to allow families a chance to coordinate this after school program with other activities each season. Please preregister on the sheets hanging in the main hallway of the school no later than September 1st.

In February Rudy 5th graders will be required to enter our school Science Fair and 4th graders will be invited to participate. National guidelines and requirements will be used.

Please see Mrs. Calvin if you have further questions or would like to volunteer to help with any of the exciting scientific events we have planned for the year.
