

Our school and District 11 are excited to introduce a new service for our students. Introducing Motor Mouth, a mobile Dental Hygiene service provided by a licensed Dental Hygienist located at our school. Motor Mouth was started to ensure all students have the opportunity to receive dental hygiene services without having to miss critical time from school. By offering these services students are missing less classroom time and parents are not required to miss work. Motor Mouth will provide a thorough dental cleaning, oral inspection (check for cavities), apply fluoride varnish, do an oral cancer exam and sealants if applicable. All children are eligible and all insurance including Medicaid will be taken. If you don't have insurance private pay is available as their fees are much lower than private practice. To have your child's teeth cleaned all we need is a consent form signed and returned to us. Once the child has been seen by the hygienist she will send an informative letter home describing her findings and if any follow up care is needed. A list of referral dentist will be provided for those who do not have a dentist. For more information please visit the website www.motormouthkids.com or you can email Heather Williams, Registered Dental Hygienist at heather.williams@motormouthkids.com or call her at 719-648-9102.
