

Coronado Cougars 2022 Summer Speed Camp

The summer speed, weights, and conditioning program at Coronado High School is designed to maximize the athletic ability of every participating athlete - focusing on running technique, speed development, flexibility, strength and conditioning. It is based on 2 core lifts per day that stress multiple-joint explosive power and 2-3 auxiliary lifts (“Stack Sets”) that are sport-specific for each athlete. It is open to anyone currently in the Coronado High School enrollment area. Due to District 11 policy and safety reasons, we are inviting only those students who will be entering the 9th through 12th grades next year. This will allow the strength and speed coaches to give the most individualized instructions to all lifters.
