Charter School Renewal Application

Revised 2023
The fundamental difference between an application to open a new charter school and an application to renew a contract for an existing school is that the Renewal Application is not about the idea of creating a new charter school, rather it is an evaluation of the existing school’s success and the capacity of the existing school leadership to continue to provide academic success through their school model.

For schools whose charter expires within a calendar year, the Renewal Application must be submitted by the first Friday of November of the year prior, unless the district and the charter school mutually agree on a different date. The local charter school Board of Directors must sign off on the application, formally submitting the application to the district.

Expiration 2024, Renewal Application due November 3, 2023
Expiration 2025, Renewal Application due November 1, 2024
Expiration 2026, Renewal Application due November 7, 2025
Expiration 2027, Renewal Application due November 6, 2026

All charter applications are to be submitted and processed in compliance with District Policy LBD and Regulation LBD-R.
