January 1, 2020

House Bill 17-1375 (C.R.S. 22-32-108.5) contains a provision concerning measures to increase transparent equity in educating students in public school, and in connection therewith, require school districts to distribute mill levy revenue to meet the needs of students.

This requirement is as follows:

- The local school board shall either implement a plan for using and distributing mill levy revenues or distribute an amount equal to at least 95 percent of the school district's per-pupil mill levy share times the number of charter school students. Such plan must be adopted by July 1, 2018. The School District 11 Board approves its plan for allocation each year by budgeting the mill levy transfers to charters as part of its budget adoption process.

Attached to this letter is a copy of the School District 11 plan for distributing mill levy revenues for FY 19-20.

Respectfully Submitted,

Glenn E. Gustafson, CPA  
Deputy Superintendent/Chief Financial Officer
