

Dear Mr. Hughes,

I am a Health Care Science student at the University of Colorado at Colorado Springs (UCCS). I want to thank you for providing healthier school lunches for the children at District 11.

Nothing is more important than the food that goes into one's body for health, wellbeing, and functioning as a whole; and to know that you are giving these kids an opportunity to put healthy food into their bodies is inspiring. I hope other school districts will also recognize the importance of this change and also act.

The change you have made will benefit these kids for a lifetime, because not only are you helping them to be healthy now, but you are also teaching them how to be healthy throughout their life. Happy Holidays! Kari Briege

THANK YOU
