

While COVID restrictions put a hold on in-person guest speaker events for the 2020-21 school year, D11 students still

had the opportunity to meet with professionals in the classroom. Sometimes from home with remote students and speakers and sometime in the classroom with virtual presentations and field trips. The tech got better and so did we. No doubt in person is best but distant virtual speakers can travel quickly, just pay attention to the time zone! 🤔. We are very appreciative to the 63 organizations that gave 708 presentations impacting 43,503 D11 students. [Click here to see who came](#)
