

I grew up and attended high school in Detroit, Michigan. I continued school in Washington D.C., Phoenix, Arizona and Colorado Springs earning an Associate, Bachelors and Masters Degrees respectively. I have enjoyed teaching gifted and talented elementary education in District 11 for nine years. My teaching experiences include fifth and sixth grade classrooms as well as Title I math programs from first to fifth grades. I am absolutely honored to be teaching and strive to discover a way that impacts each child individually. I enjoy reading, hiking, and yoga when I am not involved with school or family activities.
