

My name is Renee Smiley and I am very excited to be your child's teacher this year! This is my seventeenth year as a teacher and my tenth year as a kindergarten teacher. I attended Colorado State University where I received a Bachelor's Degree in Human Development and Family Studies, University of Colorado at Colorado Springs where I received my teaching license, and Adam's State University where I received my Master's Degree in Reading. This past summer, I began my journey on becoming a Certified Academic Language Practitioner then onto Therapist next year.

I am a Colorado Springs native and am a graduate of D11 schools. I have been married to my husband, Scott, for 14 years. We have two daughters. Sadie will be entering fifth grade this year. Halle will be entering second grade this year. We have a Red Heeler dog named Jasper and a Bengal cat named Popeye. I enjoy watching football (although as a Bengals fan, I am outnumbered at my house!), reading, amusement parks, and spending time with my family.

Kindergarten is an exciting year full of many new experiences. I look forward to working with you to ensure that your child's kindergarten experience is enriching, rewarding, and fun!
