

How to Log into a Chromebook

Logging into a Chromebook looks a little different than logging into any other type of laptop.

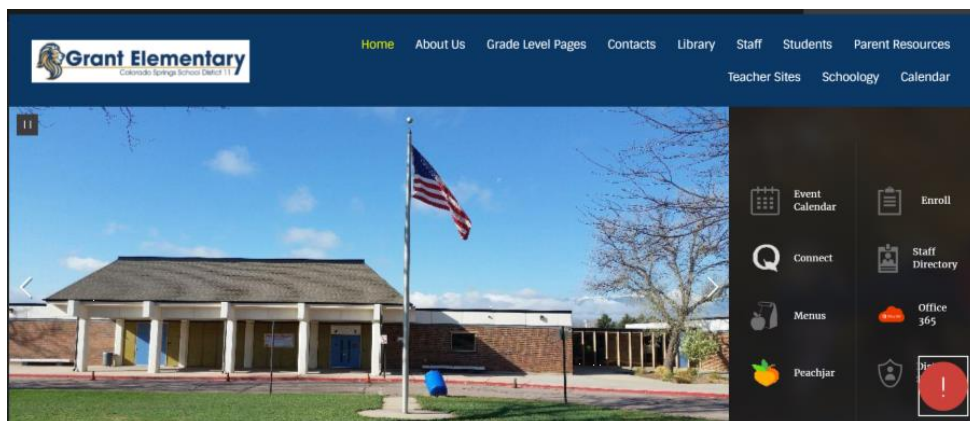

When you turn on your Chromebook, you will see this login screen:

You will need to enter your school email address. This should be printed on your login sticker on the lid of your computer. It is your first name, then a period, then your last name @d11.org.

After putting in your email, you will have to enter it one more time, along with your password.

Then you will need to go to the Grant website at: Grant.d11.org
(Remember: When you click on the Schoology tab at the top, you will be already logged in.)
