

The following are great guidelines to help you and your classmates be successful learners!

<p>Log In</p> 	<p>Log in 5 minutes before a live session to make sure your link works</p>
<p>Camera</p> 	<p>Look at the camera (we know you are very cute, but please don't stare at yourself! It is distracting)! If it helps, put a sticky note over your own image so you can focus.</p>
<p>Microphone</p> 	<p>Please turn off your microphone during instruction. Raise your hand if you want to say something, and wait to be called on. Unmute your mic when called on. You can also type your question in the comments section if you are able.</p>
<p>Dress</p> 	<p>Dress like you would for school (at least from the waist up! Pj bottoms are fine if we can't see them 😊)</p>
<p>Manners</p> 	<p>Use classroom manners – keep activities like eating, playing on other devices, and talking to your dog for later. During your online time, it's like you are at your desk at school – sit in a learning posture, focus your attention to the speaker or material, and take notes if needed. Avoid walking with your computer around, or wiggling as it's even more distracting online than in person.</p>
<p>Social Contract</p> 	<p>Follow your social contract for how to treat one another.</p>
