

## Overview

STEAM TV wants to develop a new TV show where kids create a design plan and budget to redecorate one room in their home. These materials will be shared with their families for consideration. It is important to know that you will **NOT** actually be redecorating the room, just creating the design plan and budget.

In this project you will create the following:

- A rough sketch of your room with dimensions
- A scaled drawing of your room with dimensions
- An electronic poster / presentation or poster board
- A budget of the costs to redecorate your room
- Present your design plan to your families

Begin by watching these videos to get some ideas:

Video #1

Don't be afraid to really let your personality come out with your room design. The following episode of *Trading Spaces Boys vs Girls* incorporate things that each person likes into the design.
