

Dear Parents/Guardians,

The On-Site Dentist has partnered with North Middle School in District 11 to provide **in-school dental exams, x-rays, cleanings, fluoride treatments, sealants, educational materials, and supplies at NO COST** to you or the school. Our dental team will never administer shots or pull teeth. Having your child seen by The On-Site Dentist is easy and convenient.

The On-Site Dentist:

- Comes directly to your student's school.
- Is set up just like the hearing and vision screenings.
- Coordinates all scheduling with the school.
- Will help guide you to a local dentist if your student needs additional care.
- Will bill Medicaid and/or your insurance for the services performed.
- Provides high-quality dental treatment and education for your child.

Your child is eligible if they have not seen a dentist in over six (6) months. If you would like your child to participate in our program, please complete the consent and medical history form and return it to the North MS office promptly. If you have any questions, please contact us at (719) 248-1902.

All On-Site Dentist providers, hygienists and staff, have submitted to and cleared an extensive background check through Colorado Springs School District 11 – Security Department. This background check is the same standard CSSD11 holds for individuals they employ in the district.

We look forward to meeting your child soon.

Sincerely,

The On-Site Dentist Team
