D11 Overall Progress for Required K-3 Literacy Staff			
Information	#	% Change	Notes
Completed All Requirements	125	+3.9	Pathway is verified, Schoology Course is complete
Confirmed	3		Still have tasks to complete in Schoology Course- but pathway has been completed
Making Adequate Progress	242		Most likely on track for completion- schools should check in with participants regularly (mostly for Bridge 2 Practice)
New to K-3- may have extra year depending on pathway and hire date	69	+27.5 (+ due to new K-3 LETRS deadline)	Those new to K-3 choosing LETRS have Units 1-4 deadline of August 1, 2022 then next year to complete- other pathways to meet August 1, 2022 deadline no matter hire date.
May Be Cause for Concern	33		No record yet of completion or progress report- but may be okay
Cause for Concern	55	-58	Participant is behind and will struggle to complete by the August 1, 2022 deadline (can be done if dedicated)
	23		
In danger of not completing requirement by August 1, 2022 date	41	+63.4	<ul style="list-style-type: none"> Have not started Have not defined a pathway Inadequate progress on chosen pathway
	67		

Overall Progress Statement: There are positive increases in the number of participants that are on track for completion (+3.9%). Unfortunately, High Risk has significantly increased as there was little progress over the break for some and we are adjusting reasonable progress as we approach the end of the year. There was also significant addition to the May Be Cause for Concern due to the CDE clarification on new to K-3 taking LETRS. They will have a deadline of August 1, 2022 for the first four units. We added those not started in this category. There has been a large movement out of the Cause for Concern (-58%). Unfortunately, most of that movement was into the High Risk due to minimal progress over break.

Good to Go- should meet deadline
May be a Cause for Concern- need check in to be sure
Cause for Concern- in danger of not completing by deadline
High Concern- most likely not going to complete by deadline

Schoology Course Updates

Note: data includes a mix of required and not required staff

Data Includes Charter Schools

Enrollment in Schoology Course			
Information	#	% Change	Notes
Total Number Registered in Course:	353	+6.3	This number should become much higher as the semester continues
Total Number with no data currently	118	-12.6	33% of registrants have not uploaded any documentation yet
Number of staff that have completed all requirements (any pathway)	161	+23.8	46 % of registrants have uploaded proper documentation and have met the READ Act Teacher Training Requirements
Number of staff that are complete- but need to finish tasks in Schoology	3	+50	Staff have uploaded documentation but there are errors or they have not completed the Schoology Course requirements to show final completion
Staff that are still working on their chosen pathway	74	+13.8	Partial documentation has been loaded (most are missing Bridge 2 Practice verification)
Overall Progress Update: Staff are continuing to enroll in the course to report completion of all requirements (6.3% more participants this month). There are still a large majority of required staff that have not enrolled in the course- either due to not realizing they should or because they have not completed their pathway. We will continue to communicate through a spring newsletter and building leaders/TLCs to encourage reporting.
