How Using the EHC Will Save You Money

Using the right level of care at the right time is important for your health and finances. The employee health clinic copay is lower than the copay collected by accessing your primary care provider, urgent care or the emergency department. The goal is to treat you quickly so that you can live the life you love. We will work with your treating physician to ensure that care is coordinated and make any necessary referrals if needed.

Service	Employee Health Clinic	Primary Care Physician	Urgent Care	Emergency Department
Office Visit	\$20 copay	\$35 copay	\$60 copay	Deductible/Coinsurance
On-site Lab	+ Coinsurance	Deductible/Coinsurance	Deductible/Coinsurance	Deductible/Coinsurance
On-site X-ray	+ Coinsurance	Deductible/Coinsurance	Deductible/Coinsurance	Deductible/Coinsurance

When using the EHC, a copay will apply. If X-ray and/or Lab services are provided, then additional coinsurance applies.

What if your primary care physician is with Penrose-St. Francis Primary Care?

If you are currently seeing one of our physicians for primary care, then routine services, chronic condition management, and other non-EHC services will be billed under the primary care services benefit level and your regular copay will apply. If you are seen for the services listed as covered under the EHC, then inform the front desk staff to ensure the proper benefits are applied.
