

All students learn to be

Empowered Learners

By articulating and setting personal learning goals, developing strategies leveraging technology to achieve them and reflecting on the learning process itself to improve learning outcomes.

By building networks and customizing their learning environments in ways that support the learning process.

5th graders learn to be

Digital Citizens

By cultivating and manage their digital identity and reputation and are aware of the permanence of their actions in the digital world.

By engaging in positive, safe, legal and ethical behavior when using technology, including social interactions online or when using networked devices.

Knowledge Constructors

By building knowledge by actively exploring real-world issues and problems, developing ideas and theories and pursuing answers and solutions.

Global Collaborators

By using digital tools to connect with learners from a variety of backgrounds and cultures, engaging with them in ways that broaden mutual understanding and learning.

By contributing constructively to project teams, assuming various roles and responsibilities to work effectively toward a common goal.
