

Inquiry Research Projects will help students be

Empowered Learners

By articulating and setting personal learning goals, developing strategies leveraging technology to achieve them and reflecting on the learning process itself to improve learning outcomes.

Digital Citizens

By demonstrating an understanding of and respect for the rights and obligations of using and sharing intellectual property.

Knowledge Constructors

By planning and employing effective research strategies to locate information and other resources for their intellectual or creative pursuits.

By curating information from digital resources using a variety of tools and methods to create collections of artifacts that demonstrate meaningful connections or conclusions.

By evaluating the accuracy, perspective, credibility and relevance of information, media, data or other resources.

Creative Communicators

By creating original works or responsibly repurpose or remix digital resources into new creations.

By publishing or presenting content that customizes the message and medium for their intended audiences.

By choosing the appropriate platforms and tools for meeting the desired objectives of their creation or communication

By communicating complex ideas clearly and effectively by creating or using a variety of digital objects such as visualizations, models or simulations.

Global Collaborators

By contributing constructively to project teams, assuming various roles and responsibilities to work effectively toward a common goal.

By using collaborative technologies to work with others, including peers, experts or community members, to examine issues and problems from multiple viewpoints.
