

Dear McAuliffe Families,

As our District Superintendent has shared, due to continuous improvement of COVID data in our county, increasing vaccine availability, and our ongoing prudent safety practices within the District, we are planning to return our K-5 students to school five-days per week at the start of the fourth quarter, March 10, 2021. Preschool students will remain on their four-day schedule.

We are looking forward to returning to five-days per week with our students. We want to assure you that the relationships we have built with you, our families, and our students remain a top priority. As a result, we will not be making any changes to your child(ren)'s schedules and they will remain with their current teachers whether learning in-person or remotely.

Ensuring the safety of our students and staff will continue to be our highest priority. We will follow all current safety measures in our school and classrooms to include mask wearing, class cohorting, frequent handwashing, social distancing, etc. As always, we hope to continue our partnership together as we work to end our year as safely and successfully as possible.

Kind regards,

Toni Schone
Principal
