

*Due to the number of middle school students and staff district-wide in quarantine as a result of COVID related illnesses, District 11 will be suspending boys track and field until further notice. Also, we will not start girls' volleyball on October 20. Our goal remains to offer as many middle school athletic opportunities but due to the current circumstances, the District will need to pause on plans. Schools will be in contact with families in the near future to discuss refund procedures for students who've paid their participation fee for boys' track. As plans are finalized, we will communicate them with our families.*
