

NEED WIFI AT HOME?

T-Mobile is providing mobile hotspots to D11 families!

How much data does the hotspot provide?

- Each hotspot only comes with 100G, which is not much, so this should only be used for schoolwork, and not for streaming in order to best use the provided data.

What happens if I run out of data on my hotspot?

- Since the hotspot is provided by T-Mobile, you would have to pay an additional monthly fee to add more data.

I need this! Where do I sign up for more information?

Just click [RIGHT HERE](https://shorturl.at/ryBSW), or follow the link or scan the QR code below to fill out the information form!
