

# Capstone Powerpoint

# What is my Capstone about?

My Capstone is about my video that my group and I have created in Video Production, about a student getting bullied and eventually the bully realizes how he can affect the students. This project took weeks and required a lot of teamwork.

# IB Global Context

The IB Global Context that I believe my Capstone belongs to is Identities and Relationships. My Capstone has connected us and strengthened the groups relationship by making us work together and rely on the teamwork that everyone gives.

# Approaches to Learning

The Approaches to Learning that belongs to my Capstone would be social skills and communication skills. This projects made all of us collaborate and work together to finish it. Because of this, we had to have our own roles and different tasks everyone needed to complete, which means we had to rely on each others workmanship. And while working as a team, we had to resolve problems together and cooperate. All of these different things add up to strengthen our social skills and communication skills, and eventually strengthens the groups relationships too.

# Reflection

I learned a little bit while working on my Capstone project. Often, I work alone on stuff, and I don't do many group projects. However, I found that I get along well in a group project with people that I am friends with, and learned that I can collaborate with them great. If I were to do this project again, I wouldn't change a thing. I had a lot of fun while completing this and I definitely wouldn't mind doing it again with the same people. I believe that I learned how to communicate better with a group, and I learned how to work better with people that I'm in a group with.
