WHY I CHOSE THIS PROJECT

- I had fun making it
- I was able to work with my friends
- It was fun to act as someone else
- We used multiple times and events in history to make our movie
- I was passionate about the subjects we were focusing on

GLOBAL CONTEXT AND 2 APPROACHES TO LEARNING

- Global Context: Identities and Relationships
 - I chose this global context because it best suited our project
 - We had to have good relationships with each other so we could be productive
 - We also needed to play into identities of other people that we were acting as to make our movie realistic
- Learning Approaches: Creativity and Teamwork
 - We had to be creative so our movie was something people were interested in
 - We had to make it original so people would be intrigued
 - We had to work together to make sure it go done on time
 - We also had to work together to make sure we were efficient with our time and got it done

REFLECTION

- What I Learned:
 - Making a movie is very hard
 - We should have had a script/outline in the beginning
 - We should have managed our time better
- What I Would Change or Add:
 - Better props
 - More actors
 - More scenes
- Was Our Outcome As Expected:
 - No because it wasn't as in depth/detailed as we wanted it to be
