

FOOD AND NUTRITION SERVICES

The Colorado Springs School District 11 Board of Education (the Board) will contract with the Colorado Department of Education Child Nutrition Unit for a school lunch program to be offered in all Colorado Springs School District 11 (the District) schools under the overall supervision of a Director of Food and Nutrition Services.

The Director of Food and Nutrition Services will cooperate with each school principal in matters essential to the proper functioning of the Food and Nutrition Service program. The responsibility for control of students using the school cafeteria will rest with the building principal.

Food and Nutrition Services will include hot lunches and breakfasts, through participation in the National School Lunch Program and School Breakfast Program, where applicable.

Any food sold to students during the school day, (as defined in Board Policy ADF) must meet Smart Snacks in Schools rules (Federal Regulation USDA Final Rule 7CFR Parts 210 and 220; Colorado Competitive Food Service regulations 1 CCR 301-3 2202-R-203.00), including vending, school stores, a la carte cafeteria sales, and fundraisers. All beverages available for sale to students during the "extended school day", (as defined in Board Policy ADF) must meet requirements of the Colorado Healthy Beverage Policy (1 CCR 301-79), unless parents or other adults are in attendance.

The Board will approve the prices set for meals and the price of milk.

Free and Reduced Price Meals

The District Administration shall establish regulations that conform to state and federal (or other) requirements regarding participation in programs for free and reduced price meals and supplementary food. (See Regulation EF-R.)

Competitive Food Sales/Vending Machines

Competitive food service is any food or beverage service available to students that is separate and apart from the District's nonprofit federally reimbursed food service program, and is operated by school approved organizations or by school approved outside vendors. Such competitive food service shall not operate in competition with the District's Food and Nutrition Service program, and will be closed for a period beginning 30 minutes prior to and remain closed until 30 minutes after the last regular scheduled school lunch and/or breakfast period on the campus where the school lunch and/or breakfast is served. Areas of the campus not accessible to students are unaffected by this restriction.

All income from vending machines located on campus and operating ½ hour before the first meal period until ½ hour after the end of the last meal period (breakfast and lunch) must accrue to the District's nonprofit federally reimbursed food service program.

For high school campuses only, in cooperation with, and upon approval of the Director of Food and Nutrition Services, a school or student organization may sell mechanically vended beverages classified as foods of minimal nutritional value outside the food service area(s) during

meal times (breakfast and lunch). These vended beverages must comply with the Colorado State Healthy Beverage Policy guidelines (1 CCR 301-79).

Students will be permitted to bring their lunches from home and, in accordance with Board Policy JLIB, may be allowed to leave campus for lunch.
