

Student Directions for Follett EBooks

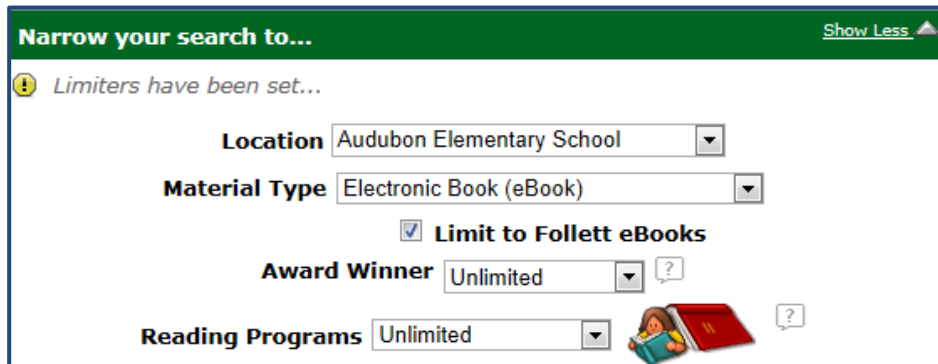

1. Log in to Destiny

- You must login to Destiny before you do your search with your Network Username/Password.

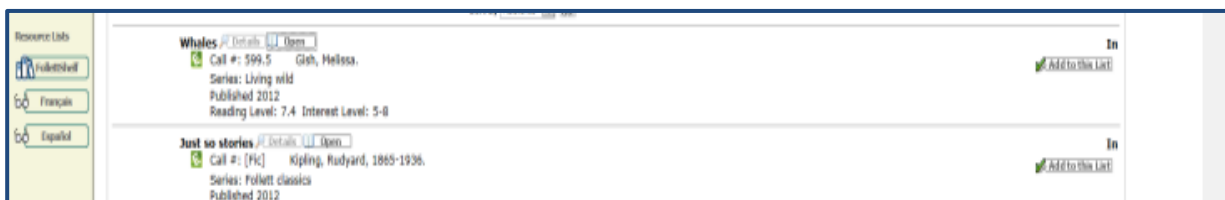

2. Search for e-books:

- To search for only e-books, change the Material Type to “Electronic Book (eBook)”.
- You have the option to search for Follett books only by clicking “Limit to Follett eBooks.” You do not have to limit in this way.

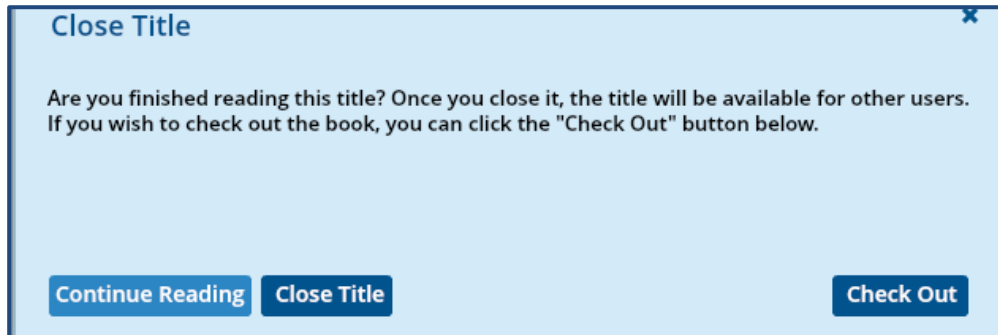

3. Find a book, make sure it says “In” on the right and click on “Open” on the left side.

4. To check it out:

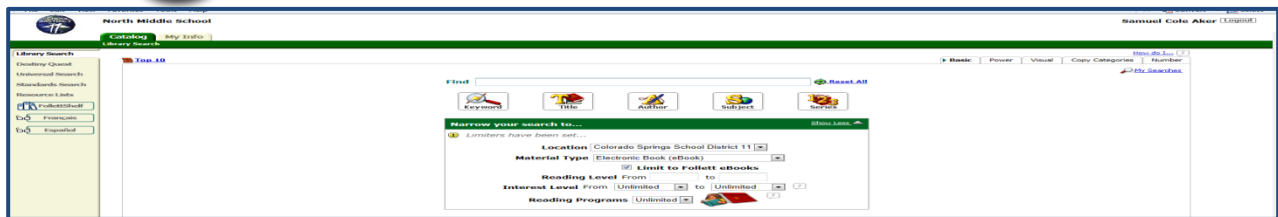

- Click in the upper left book icon. If you do this before you have even looked into the book, it will give you an option to check out here. If after you have looked at the book, you want to check out:
- You will get an option to “Check Out”. (If you don’t want to check out the title, click on “Close Title” when done.)

If you do check out, it will take you to your Follett Shelf, where there are other options.

5. To get back to a checked out book:

- Log into Destiny again and to the “My Info” tab. Your e-book(s) will show up there.

6. When a book is open:

- You can click on the “backpack” in the upper right if you want to return it early. The checkout will expire after one week for K-2, and 2 weeks for 3-12.
