

Student Device Set Up

1) Turn on and Log in to your laptop (use this year's username and password)

2) Check your school email through **Outlook**

- Click on the **Outlook logo on your desktop**
- Log on to your account

Username = d11 email (first.lastname@d11.org)

Password = network password

schoolology

3) Click on the **Schoolology** icon on your desktop and log in

Username = d11 email (first.lastname@d11.org)

Password = network password

4) **Log in to Google**

- Click on the person icon or 3 dots on top right of browser & "turn on sync"

Username = d11 email (first.lastname@d11.org)

Password = network password

5) Open up a new tab for **Office.com** and log in

Username = d11 email (first.lastname@d11.org)

Password = network password

Go to **OneDrive** (click on the tile)

- Click on "Sync"
- Click on "Open Microsoft"
- You might have to log in again
- Click yes/agree until it is set up

Go to **Teams** (click on the tile or go to more apps to find it)

- Download the desktop app (a screen could pop up and ask OR click on your profile picture icon to find the download option)
- Downloading the app could take a few minutes, so just wait a bit.

6) Open up another new tab and go to **cssd11.webex.com**

- Login to make sure your account pops up

AND/OR go to the **Software Center** (type software center into the search bar bottom left of screen).

- Click on the **Cisco Webex Meetings app** and install.
- Once installed it will prompt you to log in, so **log in**.
