

## **STUDENT FEES, FINES AND CHARGES**

In an effort to meet the needs of its community and prepare its students for the twenty-first century, Colorado Springs School District Eleven (the District) offers its students and others the opportunity to participate in a variety of curricular and extra-curricular programs and activities, and also furnishes its students certain conveniences and amenities, that it is not required to provide and for which it is not specifically funded or reimbursed. The District wishes to create a fair mechanism by which students pay reasonable fees to help defray the cost of such programs, activities, and amenities to the District without making them prohibitively expensive for students. The Colorado Springs School District 11 Board of Education (the Board) authorizes the Superintendent or Designee to establish and collect reasonable fees, as authorized by law, for the purpose of offsetting the cost to the District of providing such programs, activities, and amenities.

The Board directs the Superintendent or designee to establish a schedule of student fees in conjunction with the Board's annual budget adoption, that will be available for distribution to students prior to the beginning of each school year. This fee schedule will include not only those fees that are collected for the benefit of the District's general fund, but also fees that are charged and collected for the benefit of schools' individual activity accounts, and that the schedule contain the components established by law including, but not limited to, procedures by which indigent students may apply for and receive a waiver of fees in a manner that prevents unnecessary embarrassment or public exposure of their need.
