

Download Autodesk Software for Your Home Computer

As a student in a registered PLTW course you can download the Autodesk software at home. Please use your D11 student email when registering to download the software. The Autodesk programs are rather large and require a decent amount of RAM and a good graphics card so you will want to check the computer requirements before downloading the software.

Warning: We are currently using Autodesk Inventor Professional 2017 in the classroom. If you download the 2018 or 2019 versions at home, you will not be able to open the files here at school.

Click on the link for the Autodesk Education Community <http://www.autodesk.com/education/home>

Education Community HOME

Students, teachers and academic institutions worldwide are eligible for free* access to Autodesk software. Yes, free. We genuinely believe in education.
