

Osmo Games

Pizza Co.

With Osmo Pizza Co., you make pizza, provide change, and (hopefully) make profits when you run your very own cartoon pizza shop.

Coding Jam

With Osmo Coding Jam, place tangible blocks into patterns and sequences (coding), to enter exciting way-out worlds, where characters can be controlled, along with music they perform, to rock the house.

Awbie

Program awbie's every move - using our hands-on coding blocks, kids can program on-screen awbie to walk around, jump over obstacles, grab strawberries, and more — all in an amazing, magical world.

Tangram

Arrange tangible puzzle pieces into matching on-screen shapes.

Words

Look at the on-screen clue to guess the secret word, and zoom letter tiles into the play space to spell your answer. Each letter you get right appears on screen, until eventually the entire word is revealed.

Numbers

Kids arrange physical tiles, including dots and digits, to make numbers and complete levels. Add by putting more tiles, subtract by removing tiles and multiply by connecting tiles together.
